# NO MONEY FOR IMPROVEMENTS IS AVAILABLE

## Mayor Kiel Tells Committee That City Has No Money To Provide Recreational Facilities In The Negro Neighborhoods, But Will Do All In His Power To Bring About A Change.

## Immediate Needs Laid Before His Honor By Group Of Representative Citizens, Who Present Claims. Louis Nolte Afraid To Make Promise Of Support.

A committee of representative citizens called upon Mayor Kiel a few days ago and presented certain facts with regards to recreational conditions in the Negro neighborhoods.

This committee was headed by Geo. W. Buckner, Executive Secretary of the Urban League, who read the claim of [illegible]mittee, to which the Mayor listened very attentively.

Aaron E. Malone, president of Poro College was the spokesman for the committee. Mr. Malone told the Mayor that he had tried to satisfy his people of the city with regards to the improvements in Negro neighborhoods by telling them that the Mayor was going to do these things if given a chance, "but," he said, "I can no longer satisfy them. They want something done, and justly so. We do not like to complain, but conditions have become unbearable. There was one little swimming pool at the Metropolitan Church, but that has been closed now..

"The small play ground at Leffingwell and Lawton, is only a makeshift with no comfort station, and is poorly equipped."

Dr. W. P. Curtis told the Mayor that all the swimming pools of the city should be opened to Colored people.

Other members of the committee were: William Herbert Fields, National Grand Master, A. U. K. and D. of A.; David D. Jones, secretary, Pine St. Y. M. C. A.; Rev. N. L. Smith, pastor Lane Tabernacle C. M. E. Church, and J. E. Mitchell, editor St. Louis Argus.

After listening to the committee's plea, Mayor Kiel said in part: "I agree with all you have said about these conditions. The reason why nothing is done, is because the money has not been available. You should take this matter up before the Board of Estimates and Proportions. Mr. Nolte and Mr. Aloe are the other members.

"Its for you to make it strong. I know you people have not received what you should, but others are complaining too. Its the same old story, the fellow who is less persistent, gets the least.

"I am for it. You ought to have it. The only way you will get it, is for you to help me."

The Mayor then suggested that the Committee go see Mr. Nolte.

When seen by the Committee, Mr. Nolte said that nothing could be done just now to relieve the situation. And while the arguments of the Committee was well taken, and that their claim was just, yet he said he would make no promises.

He suggested that his "record" be accepted by the Committee as an assurance that he would do the right thing about the matter.

### Claims Of The Committee

To the Honorable,
Henry W. Kiel, Mayor:—

At no time in ths history of St. Louis has there been a greater need for larger recreational facilities for all citizens, particularly, the Negro population than today. Not even the panicky days of 1914 offered a situation as acute in this respect as the present. In the first place, the Negro citizens before 1914 had not tasted of group recreational activities on a large scale such as those promoted by War Time organizations. And in the second place, the St. Louis population had not been augmented by the large influx of southern migrants, most of whom have needed proper direction and recreation to make them suitable for city life. In the case of the newcomers and the masses, especially, the value of recreation cannot be overestimated.

Today all classes of the Negro population have a growing appreciation for community recreation. In this connection they are alert to the responsibility of this municipality to the needs of all its citizens alike. This Committee representing the various elements of the Negro population, therefore begs leave to call His Honor's attention to, and ask his support for, increased recreational facilities that will meet the needs of the Negro population upon the following grounds:

1. Industrial depression accentuates the need. The psychological effect of the present industrial depression upon the social consciousness of the Negro masses has been more marked than is true of any other racial group. It is estimated that between 5,000 and 7,000 of the Negro breadwinners are now unemployed, and have been for the past six or nine months or longer. Their only outlet now for group recreation consists mainly of commercialized movies and unsupervised dance halls, for the younger people, and the "Dry" saloons and pool rooms, particularly, for the men.

We inquire, can the social consciousness of any group of citizens living under such adverse conditions make for the citizenship which our St. Louis desires? Something must be done now to rectify the distorted minds of the Negro masses. They too must be made to feel that St. Louis is "The City surrounded by the United States," and the best place on earth to live in. They need direction and co-operation. We believe His Honor has not been made aware of these appalling facts.

2. "Taxation without representation." We desire further to call His Honor's attention to the fact that of the twenty-eight playgrounds in he city only three are located in Negro districts, and these are but mere makeshifts and most poorly equipped. Of the three public baths maintained by the city, not one is located in a Negro district. Again, of the four municipal swimming pools, not a single one is located in a Negro dstrict. The city is also promotng a municipal community center located advantageously for the whites, but very disadvantageously for the colored. Since these activities are being supported wholly or mainly by public funds, while one-seventh of the population are denied the pleasures and privileges afforded by them, either because of location, racial cleavage, or otherwise, we believe our needs are not being justly considered. And we ask that we may count no His Honor, the guardian of the welfare of all the people of this great city, to adjust these conditions forthwith.

In view of the foregoing, this Committee representing the 70,000 colored people of St. Louis requests:

1. That all recreational activities and facilities in this community now under municipal direction be open to all citizens alike, and that the playgrounds located in Negro districts be properly equipped to take care of the needs of those sections.

2. That since the swimming pools now maintained by the city do not meet the needs of Negroes is that not one is conveniently located for them, we aks that at least one be located in a district largely inhabitated by Negroes.

3. That since each of the three municipal baths is not conveniently located for colored people, we ask that at least one be established in a Negro district.

4. We most urgently request that His Honor use his every energy to provide a municipal community center easily accessible to the masses of Negroes who under wholesome and well directed play will become more contented neighbors and more valuable citizens to the city of St. Louis.

Respectfully submitted.
Geo. W. Buckner,
Aaron E. Malone,
Wm. H. Fields,
Dr. W. P. Curtis,
Rev. N. L. Smith,
David D. Jones,
J. E. Mitchell.

# Dr. C. H. Phillips Speaks AT The Lane College Farmers' Conference

Special To The Argus

JACKSON, Tenn., March 1.—The 19th Annual Farmer' Conference of Lane College, closed Saturday night, after a week of unusual success. "Making Farm Life Count" was the chief topic and the one thousand or more visitors from various sections of the South, left the city with new ambition and inspiration. Dr. J. F. Lane, president of Lane College, and the directing genius of the conference, was highly elated over the success of the Conference.

The principal address was delivered Friday night on "The Farmers' Opportunity" by Dr. Chas. Henry Phillips Jr., of St. Louis, Mo., and was pronounced by the daily press, a rare and brilliant effort. Dr. Phillips was frequently applauded as he drove home the telling points. He said among other things that Negso farmers owned over $50,000,000 in farm lands.

# NORTH CAROLINA FIGHTS HARD FOR MATTHEW BULLOCK

### Secretary Hughes Asked To Demand Return Of Negro From Canada to the Town Where His Brother Was Lynched.

Special to the Argus.

NORLINA, N. C., Feb. 28. It is stated upon reliable authority here that the white members of this community will bring powerful influences to bear upon the case of Matthew Bullock, whom an attempt was made to extradite from Canadian authorities upon the charges of inciting to riot. These charges were not validated to the satisfaction of the Canadian Government with the result that Bullock was freed and United States requests for extradition turned down.

The new charge which is to be made against Bullock, it is stated, will be murder. To substantiate these charges it will be necessary that the United States Government dispatch witnesses to Hamilton, Ontario, where Bullock resides, for the purpose of appearing against him. It is extremely doubtful, in view of all conditions that this will be done but it is well understood here that every effort will be made, to do it.

Norlina white people, with some state wide assistance, appear to have seen a necessity for convincing the Canadian Government that the excellent record made by Matthew Bullock since his residence in the British dominion is not a fair example of the character of American Colored people. If Canada's refusal to grant extradition is left without strong protest it practically establishes for the world a precedent upon which to base action for the protection of ex-American Colored citizens who leave this country in a natural fear of illegal and unjust treatment.

The National Association for the Advancement of Colored People in its fight for Bullock, and by the use of the long lynching and false trial record of southern states, is in possession of sufficient substantial evidence to make clear to an impartial court that no colored man accused as is Bullock would receive a fair trial in a southern court, and at the same time to prove that it is probable that the accused man would receive no trial at all if sent back to such a state.

The Bullock case has attracted world wide attention. Accused at first of inciting to riot here after his brother had been murdered by a mob the young colored man fled to Canada for protection. Upon taking up residence at Hamilton he immediately started proving himself an exemplary citizen and an asset to the community. No part of his record at Norlina nor at Hamilton would tend to show him a man liable to incite a riot. His intelligence, integrity and industry though, tend to prove him a man capable of resisting injustice, which appears the only crime, if crime it is, of which he can be accused.

It is stated by some members of the Norlina community that Secretary Hughes will be interested in the case and that extradition will be attempted by the State Department at Washington. Whatever the outcome the case will furnish interesting features. The findings in the previous attempt at extradition make one of the strongest indictments of the lack of justice in the United States to Negroes ever furnished by a foreign power.

### NORTH CAROLINA REFUSES TO SEND WITNESSES

Associated Negro Press.

RALIEGH, N. C., March 1.—Gov. Morrison of North Carolina, in a complaint sent recently to Acting Secretary of the State Department at Washington, declared North Carolina would not under any circumstances produce witnesses to testify before Judge Snider at Hamilton, Ontario, as to the charge pending against Matthew Bullock, whose extradition has been asked by the United States Government.

The Governor said that if Canada would not honor the extradition "in the regular way" and if the state department could not convince the Canadian authorities that they should do so, "Then I hope you will not hereafter request North Carolina in any way to honor a request from Canada."

# FRANCE UPHOLDS LEGAL POLYGAMY OF SENEGALS

### Can Be Practiced In The Colony By French Citizens. Catholics And Protestants Fighting The Law

Associated Negro Press

PARIS, France, March 1.—Catholics and Protestants in France are joining forces to combate the tretic admission of polygamy by French law. During the war a law was passed making natives born in certain districts of Senegal French citizens, but at the same time allowing them to retain their own marriage customs. The result is that polygamy may be legally practised in the colony by French citizens.

The moral objections raised by the church, which fears the consequences of such precedent stablished by the French code, are unlikely to convince parliament or government. The latter, indeed is anxious that the birth rate shall not decline in the colonies and thus cause France's reservoir of Colored troops to shrink. So it will continue to uphold legal polygamy.

# Y.W.C.A. GOES ON DRIVE FOR $7,500

The friends of Wheatley Branch Y. W. C. A. will be glad to know that they have definitely set a date for their maintenance campaign, which is from March 1st to 20th inclusive.

The Committees are well organized under the leadership of Mrs. E. C. Shaw, who has as her associate chairman, Miss Arsania Williams. Mrs. Annie K. Russell Garner and Mrs. Nancy Street are the Generals of two grand sub-divisions. Each division is composed of five captains, who have ten each of the best workers in St. Louis.

The enthusiasm over this Campaign is spreading throughout the city. Already prayer circles and other religious groups are circleing the City in prayer and pretitons that the work of the Campaign Committee may be crowned with success.

Last year, Wheatley Branch raised $29,000 toward the maintenance of the institution. This has been a most remarkable showing, considering the fact that Wheatley has not had a campaign for two years.

The very fact that she has been able to house 525 persons within the last year shows the great need for a permanent well equipped dormitory.

The citizens of St. Louis should rally to the call of Wheatley Branch. Let every man and woman, who is interested in the womanhod of the race come forward and share in this splendid piece of work.

# TO HOLD MASS MEETING ON SCHOOL SITUATION

### The Civic, Ministerial and Political Organizations of the City Unite in a Joint Call.

A joint committee representing all of the interested organizations has charge of the arrangements, which will be published in detail next week.

# BAD MAN KILLED TO SAVE SCHOOL PUPILS

Associated Negro Press.

VALDOSTA, Ga., March 1.—John Glover, a Negro, was shot and killed by a mob of his own race at Indianola, seven miles east of here, after he had shot up a Negro schoolhouse, killed a little girl and fatally wounded a boy.

Glover forced an entrance to the school after the teacher had barred the door. He was armed with a pistol and shotgun, firing both in the schoolroom.

Negroes of the neighborhood formed a posse and surrunded the schoolhouse. Glover was shot three times and finally brained with a shovel. No arrests have been made. A report was sent out that Glover was lynched. This was not a lynching in its regular sense as it was necessary to kill Glover to save the pupils.

# GARVEY READY TO CO-OPERATE WITH LEADERS

## President Of The Universal Negro Improvement Association Delivers Three Addresses In St. Louis. Tells His Audiences Of The Work Of His Organization And Its Objects.

## Gives His Views On The Race Problem And Its Solution. Says He Is Willing To Co-operate With Other Leaders For Salvation Of The Race.

Bubbling with enthusiasm and filled with optimism Marcus Garvey, President General of the Universal Negro Improvement Association made his appearance in St. Louis during the past week where he delivered three public speeches in the interest of his organization.

During his addresses, Mr. Garvey puts a deal of stress upon the work of the U. N. I. A., telling his hearers that the destiny of the race is founded in this movement.

He asks the people for more sympathy with his work as it is quite young yet. No movement, he said, has ever made such rapid progress before in so short a time.

Large crowds were in attendance at these meetings. Many being curious to see the man whom so much has been said.

In an interview with an Argus representative Thursday afternoon at the Grand Central Hotel, Marcus Garvey, President General of the U. N. I. A., Provisional President of Africa; by some considered visionary and impractical, by many considered Negroes' man of destiny, impressed one as being full of the force and enthusiasm which has enabled him to build up an organization, using material which has never been touched, and to fire the imagination of thousands of colored people in various parts of the world with the dream of empire.

"Our members are satisfied and loyal, only outsiders are dissatisfied," says Garvey.

### "Should We Emigrate?"

"I do not believe that the Negro should go to Africa as a whole, but in part. Only such as are able to build up the country, trained artisans, mechanics, carpenters, producers, should go now and prepare the country for the expansion of Negro trade interests of the future," said the U. N. I. A. head.

Mr. Garvey expresses as his belief that within the next four or five centuries the population of the United States will have grown to four or five time its present size. This will result in an overpopulation of the country and to industrial wars in which a numerically, financially and politically weak part of the population, such as is the Negro, will be exterminated. To meet this contingency and to protect future generations of Negroes it is the intention of the U. N. I. A. to establish upon the African continent a strong and capable government both for the expansion and protection of Negroes' interests.

### The Mail Fraud Arrests

"Our greatest difficulty has been experienced in obtaining men who are trained in the practices and application of the rules of big business. Too many of our men take appearance for fact. Many of them will give away our big business for a smile and mistake the smile for sincere friendship.

"The Black Star Line is merely one of our minor auxiliaries and was floated not so much for the immediate profits as for the future effect of us having our own ships, manned by our own people, afloat. Through it we have impressed our people in all countries as no other thing could have done.

"Upon leaving this country for my recent trip to the British West Indies I had made my business arrangements for not more than a thirty day absence. Through the machinations of enemies this absence was extended to four and a half months. My thirty day program over lapped. Subordinates failed me. Complications arose. I was arrested and am now out on $2,500 bonds.

"In our first negotiations for the purchase from the United States Shipping Board of a large steamship we based our plans upon the arrangements made with the old board. Upon the appointment of the new shipping board, these arrangements were changed so as to make it impossible for us to meet the new demands in view of the general slump in shipping," said Garvey in explanation of the charges of fraud which have been made against him.

### Willing To Co-operate

Marcus Garvey stated that he has made efforts to cooperate with leaders of the race in America but has been refused recognition by some and refused co-operation by almost all established leaders of national importance. "God send the day when we, as a race, can think and act as a unit," he says.

The future of the U. N. I. A. is an unknown quantity. Its program is interesting. Its leaders will be a part of history. Time only will render history's verdict. Its president and leading figure feels that the movement is not receiving the support and interest from the general public that it should. He cites instances of other large corporations which, after years of success, with every facility for avoiding difficulties, that have met reverses and retained the loyalty of the white public. As a new organization faced with every imaginable difficulty, entering new fields wherein experiences come only with time, he feels that the U. N. I. A. and the A. O. L. have accomplished as much or more than could have been reasonably expected by any man interested in the development of our race and its establishment as a factor in the world's work.

# U. S. VETERANS' BUREAU ORDERS THE REMOVAL OF COLLEGE PRES. W. J. HALE

### Tennessee A. & I. Head Accused Of Usury In Loaning Money To Disabled Ex Soldiers.

Associated Negro Press

WASHINGTON, D. C. March 1.—Immediate removal of W. J. Hale, colored president of the Tennessee Agriculture and Industrial Institute at Nashville, against whom charges of extortion of former soldier inmates of the institution been made, has been ordered, Director Forbes of the Veterans' Bureau announced.

Director Forbes' announcement was made after a conference with President P. L. Harned of the Tennessee Board of Education, Prof. J. B. Brown, state superintendent of public instruction and C. L. Marshall, in connection with charges that Hale had been loaning money on a 10 per cent basis to the Negro inmates of the institution on the security of their compensation checks. President Hale's friends, white and colored in Nashville have rallied around him. However, Col. Forbes said that he had been informed members of the Board of Education that if within twenty-four hours from their return to Nashville, Hale had not been removed from office, he will take every trainee out of the institution and place them in other schools. There are about 20 ex-service men in the school.

The case Col. Forbes declared, had been "white washed" by the Tennessee Board of Education, but had not been white washed by the government which had placed it in the hands of the Justice Department.

Systematic effort has cut down by five-sixths the amount of meat spoiled by bruises to cattle during shipment to the stock yards. A pointer for many industrials.

## PROGRESSIVE STUDIO.

The monthly lecture tendered the pupils last Saturday, February 25, at the Studio, 4314a Easton Avenue, was delivered in a most delightful way by Miss Mae E. Barrett, conductor.

The subject was "The Bohemian Girl," a sketch of the life of the composer, was first given, then the story of the opera, followed by an illustration with the Victor record in two acts.

All vigorously aplauded Mr. S. Nichols, after his touching rendition of the solo, "The Heart Bowed Down." He has a very beautiful baritone voice.

The lecture was given in such a simple way that the youngest children present could remember it. The pupils were questioned occassionally as a test. Sixteen pupils attended and one visitor, "Little Miss Lena Gordon.)

The lecture began at 3:00 o'clock and lasted for one hour, during which time all were held spell bound.

Typewritten programs naming the gems of the opera were provided for each pupil. All expressed their appreciation to their instructor by a hearty applause, and to Mr. Nichols, who smiled and bowed which ended our evening.

As a pupil and well wisher of the Studio, I will say, there is no one else who deserves the co-operation and encouragement of the people more than Miss Barrett, for the great work she is doing toward raising the standard and promoting the interest of the students in music in which she is so deeply engrossed.

The subject for the next meeting will be "The Instruments on March 25." A library of musical works has been started for use of pupils while waiting their turn for their lessons at the studio.

To break your very heart;
We both are in God's keeping
And therefore cannot part.

Although it breaks our hearts;
But some day we will meet you,
But the best of friends must part.

**There are no Dead**

Although with bowed and breaking
heart
With sable garb and silent tread
We bear their sensless dust to rest
And say that they are dead

They are not dead! They have but
passed
Beyond the mist that blinds us here;
Into the new and larger life,
Of that serener sphere.

They have dropped their robes of
clay,
To put their shining raiments on;
They have not wandered far away,
They are not "lost" or "gone."

And sometimes when our hearts grow
faint,
Amid temptations fierce and deep,
Or when the wildly raging wave,
Of grief or passion sweep.

We feel upon our fevered brow,
Their gentle touch, their breath of
balm,
Their arms enfold us, and our hearts
Grow comforted and calm.

And ever near us, thou unseen,
Their dear immortal spirits tread
For all the boundless universe,
Is life. There are no dead.

Sadly and sorrowfully missed by sisters and children, Gertrude E. Sutherland and Birdie Austin.

## IN MEMORIAM

In loving memory of our darling son, litle James R. Sherrell, who departed this life three years ago, March 5, 1919

Do not ask if we miss him,
Oh, there's such a vacant place;
Oft' we think we hear his footsteps,
Or we see his smiling face.

Roses may wither,
Leaves fade and die.
Friends may forget you,
But never will I.

Peaceful be your rest, dear son,
'Is sweet to breath your name;
In life we loved you dearly,
In death we do the same.

How we wish we had the power to
have you with us again.

Sadly mised by mother, Mary Sherrell, sister, Jessie Huddleston, relatives and friends, 2601 Wash Street.

## IN MEMORIAM

In sad but sweet memory of our darling mother Lottie Rhone who departed this life one year ago, February 26, 1921.

The month of February is here again,
The saddest of the year;
It took our darling mother,
From all her earthly cares.

We saw you suffer mother,
We saw you fade away,
We saw upon your dimple cheeks
The fatal sign of death.

She has gone among the angels,
Safe from every grief and care,
We shall meet again in Heaven,
And never more be parted there.

Angels guard you, darling mother
And may your harp ring loud and
clear,
Leaving notes of love behind you,
To the ones that love you dear.

Sadly missed by broken hearted children and all who loved her.

## IN MEMORIAM

In sweet memory of our dear mother and frined Margrett Gilbert who departed this life two years ago, Mar. 6, 1920.

Two years it is since we laid you to
rest.
And placed your cold hands upon
your dear breast;
In silence you suffered with patience
you bore,
Till God called you home to suffer
no more.

So God in His mercy help us we pray,
To mend our hearts that were broken that day,
Guide us from above dear mother,
Until we too will be called away.

Sadly missed by daughter, son and friend;

Georgie Jones Grimes, Walter Scott, Lillie Stiff Simmons.

### [illegible] PLAYERS ARE [illegible] SUCCESS AT BOOKER WASHINGTON

The Luke Scott Players, in an exhibition of high class dramatic work, are a rare treat for the Booker Washington Treater patrons this week. This most efficient company is presenting "In The Hills of Kentucky." Its theme is a feud existing between the Clayton and Markum families and it comes to an exciting climax and end when Gale Stetson, treacherously schemes to win Belle, the daughter of Clayton, by embittering the hatred of her father for Case Markum, whom she plans to marry. This almost succeeds when Jim, her brother, is mysteriously murdered. A dagger, property of Case, is found and he is accused. Colonel Clayton is about to get revenge, by killing Case, when Marra a fortune teller, appears and tells that it was Stetson who committed the crime to defeat his rival for Belle's hand. The fortune teller also claims to be the deserted wife of Stetson, who is the leader of a band of desperate thieves. Stetson attempts to escape but is brought down by Jake, the servant, with "Old Betsey" the rifle which he had sworn would never "bark" again unless it killed someone.

Luke A. Scott, as "Gale Stetson" the villain is strong in the character and a finished dramatic actor. Others in the cast are: Wm. Hemmings as "Col. Clayton," Irene Elmore Scott as "Belle," Clemett T. Miles as "Case Markum," Zenobia Shamburger as "Marra," Robert Brown as "Jim" and Able Payne as "Jake." The parts are excellently portrayed. Miss Winnell Mitchell is delightful as "Cherry" the ward of Clayton, and George Daniels is amusingly [illegible] bashful suitor.

The dramatic [illegible] is preceded by an olio of specialties. This opens with a chorus and dance "Zazoo River" by the company; Mr. and Mrs. Scott assisted by Daniels and Payne render a melodious love ditty "Sweet Adaline," Brown and Payne do a black face turn. Mr. Scott and company appear in a "dope" scene entitled "Dreaming" which is a fine piece of real character work. A monologue and eccentric buck dance closes the first part.

As a whole the show is a creditable example of artistic acting and rises to a pinnacle above the ordinary vaudeville show.

In this picture Miss Young seeks to recover from the dregs the man she loves, and who has unfortunately fallen into oblivion thru the evil machinations of a self-seeking and false wife. It is said to be one of the best of, the better classes of pictures released this season.

On Tuesday, the bargain feature will be "Ramonia," a massive story of Early California and the Mission Indians.

### "The Light In The Clearing," "Sheik" And "Don't Tell Everything" Among Olympia Features

On next Thursday, March 9, the Olympia Theater will present, "The Light In The Clearing." It is a big whole-souled drama of American people. It carries with it a big lesson and is paving the way for more of the substantial drama as sponsered by producer Bollman.

This Saturday, the Olympia will feature "Don't Tell Everything." It deals with a town girl, a woodsey girl, a sportive young man and his philosophical friend. There is a triangular love affair which results in mixups that will keep you guessing as to the outcome. There are many thrilling scenes, notably a polo game which all but ends tragically a sort of Lochinvar marriage, a mountain storm and the like.

The "Sheik" will be shown two days Sunday and Monday. This big photoplay of tempestuous love between a madcap English Beauty and a bronze Arab chief is one of the most sensational pictures of the year and is brim full of excitement on both sides of the Atlantic, starting with the tented luxury of the Sahara.

### "Vendetta," "Two Kinds of Women" And "Life" At Jeatamere

Pola Negri in "Vendetta" will be featured at the Jeatamere Theater this Sunday and Monday. It is a story of a great love and a terrible passion. It deals with the blood oath of the Corsicans, a girl's pledge to kill her brother's slayer and moves rapidly through a romance between this passionate daughter of old Corsica and a young British naval officer.

On Wednesday and Thursday Pauline Frederick will be seen in "Two Kinds of Women" The story is an entirely new type for Miss Frederick

(Continued from Page 4)

a wholesome tale of the outdoors with picturesque settings in the California Sierras. Some of the most ruggedly beautiful scenery in the United States is used as a background for this new B. C. Production.

Friday and Saturday, March 10-11 this theatre will present "Life," a story of a poor but honest husband who almost pays the penalty for a crime done by the rich brother-in-law and a jealous rival. There are innumerable thrilling situations.

### "Shame" And "A Man's Home" Pendleton Features

A William Fox special, "Shame" will be featured at the Pendleton Theater Sunday, Monday and Tuesday The story deals with the life of a wealthy young man of San Fransisco, who was born in a distant country. David Fielding is made to believe that his mother was a native woman and that he is a halfcaste. The thought preys upon his mind until he is driven frantic. He takes his infant child and flees to the snow-fields of Alaska in his determination to shun mankind Among his adventures there is a barehanded fight with a wolf in his lonely cabin. The mystery concerning his dread secret is cleared up in striking fashion, it is said.

On Thursday and Friday the feature will be "A Man's Home" A self-made man has become so engrossed in business affairs that he neglects his pretty wife who, being only in search of gay pleasures, falls into the hands of unscrupulous adventures with the result that the family soon finds itself engulfed in a sea of scandal. The awakening and straightening out the situation are dramatic climaxes.

### "Western Hearts" And "Strength Of The Pines" At Cacino

Cowboys and cowgirls and some of the best horses ever seen in a western drama are seen galore in the picturization of "Western Hearts," which is the attraction at the Casino Theater for Saturday. Those who remember Buffalo Bill and his sweetheart of the plains will have a pleasant awakening when they see how the modern cowgirl and cowboys make love in this picture. William Russell, of Fox photoplay fame, will be seen at the Casino in his latest picture, entitled "Sthength of the Pines," and based on Edison Marshall's story bearing the same title. It deals with villainy and heroism in the forest depths of Northern Oregon, and is said to be acutely gripping in development throughout. Irene Rich, an actress of much charm and beauty, is leading woman.

### "Burn 'Em Up Barnes", And Tom Mix in "Sky High."—Criterion

Johnny "Torchy" Hines in "Burn 'Em Up Barnes," will be featured at the Criterion Theatre this Saturday. The story, which concerns the escapades and experiences of the young son of a manufacturer of high powered motor cars, who revels in road races and other sensational pastimes to the detriment of discipline and the depletion of the paternal cash reserve, is replete with thrills, comedy and love interest—well blended into an appealing and swiftly moving screen story.

On Sunday, Tom Mix will be seen in "Sky High." The stunts performed by the star in this William Fox production are nothing short of marvelous. One in particular—that of Mix riding through the Grand Canyon of Arizona in an airplane—is in a class

## WHERE IS THE LEGISLATIVE RELEIF COMMITTEE?

Now comes the news that segregation is still prevalent in the several governmental departments at Washington. And while the segregation in its self is bad enough, the conditions under which it exists makes it worse.

It is reported that under the present arrangements, the colored employees, in the Veteran's Bureau are compelled to eat their lunches in the basement of the building under the most unsanitary conditions where the spittoons are cleaned, bad odors and filth are much in evidence.

This condition of things, directs our attention to the so-called "Legislative Relief Committee" who some time ago sent out letters soliciting funds for the maintenance of such a committee whose business would be to look after the rights of the colored people of the country. This committee was headed by "Col." Henry Lincoln Johnson, who was described as a "fearless leader" of his race. The public was led to believe that this committee whose headquarters are at Washington, right on Pennsylvania Avenue, between the White House and the Capitol, would act as a "watch dog" in guarding the interest of the race. And that their political influence assured their success.

But, instead of this committee getting their heads together and working a program in the interest of the race, they went to work, heart and soul for jobs for themselves. Hence segregation and every other imposition has been heaped upon the members of the race, and not a word of protest has ever come from this "Relief Committee" so far as we know. Jobs have been first and foremost in their minds.

The people, the poor people will want to know, what has become of the protection they were paying for, and where is all this "influence" that these so-called leaders were supposed to have?

We wonder what explanations are being made by those who were the direct beneficiaries of the peoples' money, as to why segregation of the meanest kind still exist in the several governmental departments at Washington? We wonder if those who have charge of the Relief Committee have made themselves so ridiculous in the sight of men by begging for jobs, that no government official will hear them?

When we think of these things, we feel like using the expression of Brother Harry C. Smith of the Cleveland Gazzette—"Lord" have mercy!"

## MR. NOLTE AND HIS PROMISE

When a Committee called upon Comptroller Louis Nolte a few days ago with reference to the immediate needs of the recreational facilities in the Negro neighborhoods, it was met with the statement that there was "no money" with which to make these improvements.

When shown the urgent need of something being done to relieve the conditions, he admitted the truth of the statement but said he would make no promise of his support of the proposition.

We do not think much of a man who is afraid to make a promise. Especially a public official. We have seen already too much of this waggly wobbly stuff in office. If Mr. Nolte means yes, let him say so. If he means no, let him say so.

He knows, that a promise carries responsibility. While "I wont promise" means nothing. He is dodging responsibility when he refuses to make a promise.

Mr. Nolte referred to his record as an assurance that he would do the right thing. The records in his office show that the $24,000 asked for to improve Tandy Park was turned down. The records also show that he was the member of the Board of Estimates who refused to allow the money to keep open the swimming pool at the Metropolitan Church. He no doubt, knew of the great needs of recreational facilities in the neighborhoods complained of, but he has done nothing that brought about a change. THIS IS HIS RECORD.

Alluding to his record means the same to us as his refusal to make a promise. The public official who is afraid to commit himself on a public question, does not appeal to us as a safe leader.

Straddling and on the fence does not represent courage or backbone. Its the man with a decision whom the world honors.

## THE NEW POSTMASTER

We are pleased to see the new Postmaster, Louis Alt take his office as Postmaster of St. Louis.

No doubt, there are thousands of others who are glad to see the change if for no other reason than that Mr. Alt is a Republican, appointed by a Republican President. But we are not congratulating him merely because he is a Republican in politics, but we are pleased because we believe he will give the City an efficient and business administration.

The Colored people of the city generally, will look upon his appointment with favor because they know him and have labored with him in a common cause.

Those who know him best believe him to be fair and just in his dealings with his fellowmen. And for that reason all the employees can't but expect a fair deal regardless of race or color.

We congratulate Mr. Alt upon this appointment and hope for him the most successful administration.

Don't forget to do your duty—Push the Dyer Anti-lynching Bill.

Don't complain so much about the other fellow. What are you doing yourself?

Business and pleasure may some times go together.

Remember—Politics rules the world.

"Eternal Vigilance" is the price of success.

Let's keep trying, we may get together some day—and wont that be a glorious time.

## LEADERS PLAN MOVEMENT FOR INTER-RACIAL CO-OPERATION IN WASH'TON

By NORMAN L. McGHEE
Washington News Correspondent

WASHINGTON, D. C., March 1.—Invitations have been sent to leaders among both the white and colored people of Washington asking them to meet Dr. W. W. Alaxender, Director of the Commission on Inter-Racial Co-operation, at the First Congregational Church, 10th and G Streets, N. W., on Tuesday, March 7th, at 2:30 p. m.

In the call which was signed by Rev. Jason Noble Pierce, Pastor of the First Congregational Church, Washington's leading Congregational Church; Dr. D. Butler Pratt, Dean of the School of Religion of the Howard University; Dr. Emmett J. Scott, Secretary-Treasurer of the Howard University; Dr. Chas. H. Marshall, a prominent physician of the District of Columbia; Mr. John R. Hawkins, Financial Secretary of the A. M. E. Church; and Mr. William Knowles Cooper, General Secretary of the Y. M. C. A., twelve representatives from each race have been extended invitations to be present.

Dr. Alxander has a significant story to tell of the work already accomplished by the Inter-Racial Commission, and of the plans which are being made to bring about better understanding and co-operation between the races. The subject of Racial Co-operation will be discussed with a view to the beginning of a movement in Washington.

### THE MODERN GIRL

We hear much talk nowadays about the rapid gait young people are traveling. Magazines and newspapers are devoting much space to discussions for and against the modern girl whose age is around 18. If the pace is too swift it is not altogether the fault of the girl, but largely that of parents who have no kept pace with the strides of the charming damsels of today.

We believe it would be a fine thing if some of the entertainments given at the halls were attended more frequently by parents in company with their daughters and sons. It would serve two purposes: It would tend to show that the fathers and mothers were interested in the same things that had a fascination for their children, and at the same time, parents would then have an opportunity, long neglected, to bring back the old days when they actually helped to select company for their children and guided them aright.

Parents and children should be companions and pals and the present electric period demands that they get more closely together for the sake of posterity.

### Young People At Church

There is a wide-spread indifference on the part of young people about attending church. This feeling has developed not because of the impotency of religious tenets, but is due to the influence of the schools which are now giving more time to science, economics, and the study of society. Many of the churches of today still follow the stereotype creeds handed down from time immemorial and hold that the chief emphasis of the sermon should be laid on the "Great Hereafter."

The schools now, however, are endeavoring to fit young people to live today! St. Louis is fortunate in having a number of well trained preachers who are struggling earnestly to make the members of their congregation see that the Christ like life consists not in getting ready to die, but in learning better and better, each day, how to live in this world!

The value of fresh air, good health, sound bodies, and clean homes are simple subjects containing the very essence of all that is learned in the school room or that may prepare us for a longer life on earth, or an eternal life in Heaven.

## FOREIGN NATIONS BAN FILMS USING CITIZENS OF THEIRS AS VILLIAN

### American Producers Willing To Pay "Man Without A Country" Highest Salaries In The Movies

Associated Negro Press.

NEW YORK CITY, March 1.—American motion picture producers announced here that if the "Man Without a Country," will consent to play the international villian they will make him the highest salaried person in the movies.

The announcement was prompted, it was said by recent threats of foreign governments to ban the films of producers who use one of their nationals as the villian in the picture.

It has come to a point where Uncle Sam is the universal "goat," they said, as the United States is almost the only nation to refrain from official action against the casting of one of its citizens in a unpopular role in the cinema.

The consul general of China recently asked for seats at a private showing before censors from several states of a "sinner picture" now showing on Broadway. He explained that his government probably would wish to protest the use of Chinese characters as villians of the play.

In another picture recently filmed the unpopular roles were assigned to natives of Abyssinia. The Abyssinian government promptly lodged a protest threatening to bar all pictures of the producers from that country and from other countries where it had influence.

Mexico was the latest to put forth its foot on the display of "propaganda" pictures when G. B. Songuin, consul general of the Obregon government, informed American producers that "the government will find it necessary to stop the importation to Mexico of all films produced by companies which may continue to manufacture films derogatory to Mexico even though the latter may be destined to other countries."

It was estimated that ill-feeling toward Mexico had been engendered in Central and South American countries by pictures in which the Mexican was portrayed as villian.

## HOWARD ANNOUNCES SECOND SERIES OF FREE PUB. LECTURES

WASHINGTON, D. C., March 1.—The second series of Free Public Lectures to be given by the Faculty of the Howard University will begin March 2, with the lecture upon the subject: "The Remaking Of Man," by Professor Algernon B. Jackson, Director of the School of Public Health, Howard University. The initial series of Faculty lectures which were held last year brought beneficial rsults and warranted a continuance this year.

Among the lectures included in the series for this year will be the discussion of the subjects: "The Rise and Development of the American School of Painting" on March 9th, by Mr. James Vernon Herring, Instructor in Architecture; "The Influence of Women in Education" on March 23rd, by Associate Professor Martha Mac Lear; "The Negro Lawyer," on April 6 by Professor Robert H. Terrell; "Some Features of Modern Economics," on April 20th, by Dean E. L. Parks; and "The Evolution of Democratic Representation in Modern England" on April 27th, by Associate Professor Charles H. Wesley.

## Comment

By G. U. Cloud

### Egyptian Freedom

After almost two thousand years of bondage Egypt, once greatest country in the world, is free. British armies will have to move out and take all the British coercive power which have existed by force of British arms.

This may do strange things to international exchange. Egypt as an independent country will issue its own currency, establish its own credits, inaugurate its own system of trade. The African hinterland will have an independant, native, and to a certain extent, powerful African state to deal with and maybe to lead native interests.

On account of Egypt's past glories white propagandists have established Egyptians as a branch of the "Caucassian" race. Now Egyptians may have something to say about that. Egypt had great universities when the ancestors of present day rulers were savage herdsmen and hunters in northern Europe. Egyptians know history.

### Power Madness

Egypt's ancient power destroyed itself because ancient Egyptians over-estimated their abilities. Rome felt like she could conquer the world, as did Turkey, China, among the ancients, and Germany of the moderns. Gradually men learn that war as a conquering agent will not work. Nations which try to grow by it thrive for a while, furnish a lot of thrilling literature, dwindle and die. Any fool should know by now that nations must produce to progress. War is simply a means of taking that which others have produced and distroying the producers in the process.

### A Lesson for America

There are a few more than 10,000,000 Egyptians in Egypt. There are a few more than 10,000,000 colored Americans in the United States. 10,000,000 Egyptians with full confidence in white nations with their own individual and racial independence, with opportunity to work out their own destinies, are bound to add a lot to civilization. By making individuals great their nation will become great and their real friends of all races will derive some benefit from Egyptian progress. The real Japanese menace and the real Egyptian possibilities should furnish food for thought to oppressors of the millions of American colored folks. Soon will be several powerful governments who will know the truth about the worth of the race.

### Three Trials

Clifford Taylor, young colored man, was sentenced to five years in the St. Louis County court because the prosecution did not establish as fact that the deceased did not have a weapon in his hand. Matthew Bullock, refugee from North Carolina, is exonerated by Canadian court of charges of inciting to riot in North Carolina and rearrested by Canadian authorities upon a United States charge of murder. A white woman at Cincinnati, Ohio, was freed of murder charges after evidence was submitted that she had went into her house, got a pistol, left home and walked one block and shot a sixteen year old colored boy to death.

When a nation has been taught to despise a more or less helpless minority of citizens justice becomes a farce. Americans who are alarmed at the national disrespect for law might profitably look into its administration where colored Americans are concerned.

### Get Together for Results

Abbas Hilmi, Khedive of Egypt, Prince Ahmed Fuad the Khedive's uncle, and Said Zagloul Pasha were each leaders of different factions of Egyptians. Each had personal aspirations but they were all in accord as to what was needed for EGYPT. Messres. Garvey, DuBois, Moton, et al. will probably think about this.

### The Newspapers

About one month after the ARGUS had published a display article informing the public that a colored woman had received an award of $29,000,000 in Louisiana the local daily papers announces that "A Louisiana Negress Gets $29,000,000." Think it over when you buy your paper.

## Rockefeller Jr., Appeared As A Criminal In China

The Associated Negro Press

NEW YORK CITY, March 1.—John D. Rockefeller, Jr., addressing the Westchester County Chamber of Commerce, told another story on himself about his recent visit to China.

In one town he visited he caused removal of the top of the sedan in which he was being carried, so that he might better see the sights.

The populace greeted him in such a peculiar manner that he made inquiries, eliciting the information that he was riding in state only accorded to criminals on their way to be executed. All other persons in China he was told rode with their sedan tops up.

## TUSKEGEE FOUNDER'S DAY

Associated Negro Press.

TUSKEGEE INST., Ala., March 1.—Chief Justice William H. Taft, in his address on Founder's Day at Tuskegee Institute two years ago, declared that Founder's Day at Tuskegee Institute should be as significant to the Negro as George Washington's birthday is to the American public in general. The host of Negroes and white friends who gather at the Institute each year upon this occasion to pay tribute to the memory to Dr. Booker T. Washington, attests the esteem in which this event is held, not only by Negroes but the white and public at large. There is a special interest in the observance this year on account of the unveiling of the Booker T. Washington Monument which will be held in conenction with the Founders' Day Exercises on April 5.

Each year since the death of Dr. Washington, a prominent American has delivered the Founders Day Address. The array of speakers on the program this year is composed of some of the most eloquent orators and leaders of thought in America. The Founder's Day Address will be delivered by Dr. Wallace Buttrick, chairman of the General Education Board; Honorable Josephus Daniels, ex-secretary of the Navy, will represent the South; Dr. George C. Hall, one of the leading citizens of Chicago will represent the Negro and Dr. Emmett J. Scott, secretary-treasurer of Howard University, who was for 18 years secretary to Dr. Washington, will formerly present the monument to the Trustees of the Institute.

The Booker T. Washington Monument which is the work of the famous sculptor, Charles Keck, of New York, has been proclaimed "a master work of art" by those who have visited the sculptor's studio. It is a representation in bronze, standing eight feet high, of Booker T. Washington, lifting the veil of ignorance and superstition from the eyes of the Negro and pointing the way to opportunity, prosperity and success through education, industry and thrift. The statue will be erected upon an artistic base eight feet high, in the center of the campus and will stand as an indication of the recognition of and the appreciation for, the work wrought by Dr. Washington for his race, on the part of Negroes by whose contribution the monument was made possible.

Dr. R. R. Moton, principal announced today that Honorable William C. Wilcox, New York City, Chairman of the Board of Trustees with other northern and eastern Trustees, is planning to bring a large number of friends from the east to the Institute at this time, and Mr. Julius Rosenwald, Chicago, philanthropist and a trustee of the Institute, is to bring a large number from the west. These parties will make the trip in special cars. Other special parties are being organized by representative Negro leaders in various parts of the country.

Many friends and admirers of Dr. Washington and the Tuskegee Institute, will take advantage of the opportunity, which a visit at this time will offer to see the school and its work as well as to pay tribute to the memory of the man who founded it. Announcement as to reduced rates will be released at a later date.

## CITY BEAUTIFUL HEALTH RESORT

### Randolph Springs Offers Opportunity For Both Health And Wealth To Investors, Supported By Wonderful Nature Itself.

HUNTSVILLE, Mo., March 1—Randolph Springs National Health Sanitarium is a real National Race Enterprise properly organized for the protection of those who put their money into this project.

All legal papers, including the Declaration of Trust, Contract for the property and the Abstract of title are on file in the Recorder's Office at Huntsville, Missouri; the county seat of Randolph County, Mo.

The president, Dock Payne and the Secretary-Treasurer, James B. Coleman, officers who handle the money each is bonded for $5000 to the Association by a Security Company for the faithful performance of the duties and trust imposed as such financial officers.

In this corporate organization each purchaser of preferred stock gets not only a certificate of shares but will also be given a warranty deed to a lot in this proposed city without additional cost to said purchaser upon which he may build a home and become a permanent resident of this city.

The whole scheme of Randolph Springs is to make this a real National Health City, owned and absolutely controlled by the purchasers of the stock of this Association.

No city site for our group is so fortunately situated as is Randolph Springs. Here many hundreds of acres of the finest farm lands in central Missouri lie all around it, ready to be bought and cultivated in small farms by our people. Here plenty of good fuel lay at its doors. An abundant water supply from Eastfork less than half a mile distance will furnish all additional water needed for our city. Then here the railroad facilities are the very best that can be thought of because the main line of the Great Wabash system between St. Louis and Kansas City borders this tract of land on its entire Northern boundary. The North Central State Highway also bounds this tract with a cross State hard surface highway.

Climatic conditions are the best found anywhere in central Missouri no matter, how hot the days may be, here the evenings and the nights are cool and refreshing. This is an ideal place for the development of all things that a race needs to make itself great.

Come see what God has done here and how he has permitted man to combine elements that will work out a great future for our group.

The Negro must live somewhere, why not choose a place and build homes in a location which offers advantages and conveniences such as Randolph Springs offers?

James B. Coleman, Secretary-Treasurer and General Agent will be in St. Louis at the Pine Street Department Y. M. C. A. for next two weeks and will be glad to explain more in detail this great project. He will also answer any calls or arrange dates at your home, office or at the "Y" with any who may desire a fuller discussion of this matter.

Our exports and imports are likely to trend towards the balancing point. From an international viewpoint, this is wholesome.

# C. I. Taylor, Baseball Magnate And Business Man Passes Away

### Champion Of Cleanness In Athletics Dies At Indianapolis. Thousands Of Both Races Line Streets And Fill Church At Funeral. Club Owners And President Of National Negro Baseball League In Attendance.

Special to the Argus.

INDIANPOLIS, Ind., February 27.—Thousands of people of both races surged up and down Indiana Avenue, today in an effort to gain entrace to the home of the late C. I. Taylor, who passed away last Thursday morning at 10:30. Many more joined the already swelling horde at the church when the remais arrived there. While the funeral was quiet, there was much ado among the citizens who could not get into the church to hear the funeral preached.

The funeral was held at Bethel A. M. E. Church, Rev. Charles, Sumner Williams, officiating. The Masons and Shriners had charge of the funeral and the Shelton and Sons Undertakers had charge of the body.

**Andrew "Rube" Foster Attends Funeral**

The President of the Negro National League, Mr. A. Rube Foster, arrived Sunday to attend the funeral and along with him came John Tenny Blount, Detroit, with Wm. Dismukes, Manager of the Pittsburgh Keystones coming in from the East ahead of the contingent. James Taylor, Manager, Cleveland Club of the League, John "Steel Arm" Taylor, Ben Taylor, brothers of the deceased were in attendance.

The end came to C. I. early last Thursday morning. He had been ill for the past three weeks but until recently no great alarm was caused by his illness. He passed away peacefully at his residence, 446 Indiana Avenue with many relatives and friends at his bedside who had kept a constant bedside watch for the previous forty-eight hours.

Mr. Taylor was a member of Bethel A. M. E. Church, the Persian Temple of Shrines, and the Masons. He was active in all civic matters and could be counted upon to assist in all charitable drives that were worthy of support.

Taylor was 50 years old and was born in North Carolina and was educated at Biddell and Clark Universities He served in the Spanish-American War.

He is survived by a wife, three brothers and a host of other relatives.

He was laid to rest in Crown Hill Cemetery, this city.

Taylor began his long career in So. Carolina, later he established a club at Birmingham, Alabama. His greatest desire was to give his people the best there was in baseball and thru his efforts the first Northern Club invaded the South, the Leland Giants, of which Rube Foster was at that time manager. It was thru the persuasion of Foster that Taylor came North and located at West Baden, Indiana where he developed a club that won the championship. After this signal success he moved his club to Indianapolis where he remained until death laid its cold hand upon his brow.

After years of hard struggle at this point he became a member of the Negro National League and was a prime factor in all its deliberations and much of his ill health is attributed to this source. When he died he held the vice-presidency of the league. At the close of the past season dissatisfaction broke out in the ranks of the League and many thought there would be further existence of the same feeling. Taylor got out of his sick bed and canvassed the East in an effort to persuade the men to continue in organized baseball and then came to the league meeting in Chicago. At this meeting he fought both day and night for the principal of baseball and his great efforts were rewarded by the members of the League accepting unanimously all the things he desired. This is a great tribute to any man.

He fought for baseball. He lived for baseball. He died for baseball.

A lasting monument to his memory is the A. B. C. Baseball Club.

Taylor lived a life that anyone should be proud of and strive to duplicate. He was unafraid to do those things that come to hand and that impressed him as bearing the right mark. Tho he made many friends he made also a few enemies. But it is said of those who rise above the level of the average that they create enemies.

It is only fitting that the mass of humanity who attended his funeral and those who mourned from afar should pay tribute to his memory. But let us not weep at the loss of such a noble character. We who know him best are sure that he wished no great commotion because of his passing, and in the language of the poet, Bert Roscoe King:

**"When I Am Dead"**

"When I am dead and when my soul
Is freed and flies away,
When I my earthly chores have done
And I return to clay,
E'en when my spirit journeys to
The region yet unknown,
Why weep and lament o'er my corpse
My worthless flesh and bone.

And please don't say good things of me
When I have passed away,
I mean the things that when I lived
You never thought to say
You know me now while I still live
The life which I have led,
So friends, please do not flatter me,
With lies when I am dead.

**Ben Taylor Slated To Lead Club**

The latest information is that the jamin, who has played 1st base for the A. B. C. Club for many years is to pull on the shoes of the late Hoosier club owner.

Been is a loverable chap and if he does lead the club there will be no doubts in the minds of the fans and members of the league as to the ability of Ben to put up a good exhibition of baseball strategy. The fans all over the circuit are strong for young Taylor and the move will prove popular.

## Champion Of Cleanness

### The Sport World Witnessed The Passing of a Mighty Exemplar When Charles Taylor Succumbed to Untimely Illness

By DAVE WYATT

CHICAGO, Ill., March 1.—When C. I. Taylor, greatest champion of cleanness in athletics, went out the other day, the sport world lost one of its most conspicuous figures. Fair, just, competent, he was not only a representative of integrity of strict impartiality and inflexible judgement, but he succeeded by sheer force of character, in impressing his own personality upon all with whom he came in contact, in a manner that but few men have been able to do.

"C. I." as he was affectionately called could walk along the street in almost any city in this country—and in many towns and hamlets too, for that matter,—and be recognized repeatedly in every block he traversed. He had been with the national sport for at least a quarter of a century and probably knew more ball players than any other man. Taylor was a trooper of the Tenth Calvary, U. S. Army during the Spanish American War. He started his baseball career along about 1900 at Birmingham, Alabama. At the time of his death, he was the oldest of a family of seven brothers. He was born at Anderson, S. C. the year 1875.

Taylor loved baseball and he seen it grow from the small acron stage among the Darker people, to the tall oak of amusement for the whole American people. One year after coming north, Taylor acquired, what to himself was his greatest baseball achievement, and one of which he was always justly proud. September 11, 1911 Taylor's West Baden team defeated the Pittsburgh National League team by the score of 2-1 at West Baden, Ind. Later, Taylor invaded the Indianapolis Ind., and his star continued to ascend. The Taylor A. B. C's baseball club and the C. I. Building which he fostered should stand as monuments to his untiring energy and undying fame.

The passing of C. I. Taylor is a distinct loss to baseball. True, his later experiences as a N. N. League managers were crowned with no such success as his earlier ventures, but his capacity as a manager has been established beyond cavil. Taylor was a strict disciplinarian, a firey and brilliant campaign director, a master of baseball strategy

As a man he was somewhat irritable, intensely secretive, but beneath his well market exterior of reserve and craft, essentially just, sound in his judgement respected, if not liked, by his associates and subordinates If Taylor had an enemy I certainly never heard of it. He was as sentimental and tenderhearted as a child and never let an opportunity go by to aid a friend. I class him with Andrew R. Foster, as a man who did wonders for baseball I say, peace to his ashes, and I shall never forget him, long as I live! He was a grand old sport and a hail fellow, well met, of the kind that the world needs and appreciates. There was but one C. I. Taylor. There may never be another.

## Sterling, Fearless Leader

By A. Rube Foster

CHICAGO, Ill., March 1.—Like a thunderbolt from a clear sky was the message that was flashed over the entire country by the Associated Press, the saddest news that tongue or pen can tell—the death of C. I. Taylor, president and sole owner of the Indianapolis A. B. C's Baseball Club, vice president of the National Association of Colored Professional Baseball Clubs, Vice president of the National Negro League and a pioneer of Colored baseball. When the telegram was brought to me it conveyed grief often heard of but seldom experienced.

C. I. Taylor will go down in history as a man among men, a recognized commercial as well as social figure of much prominence and a born leader who had the masses at his command.

He was one of those sterling characters, who was fearless in his denunciation of the things he thought wrong, unusual in that he practiced what he preached. His mode of life in every community, city and state brought him the highest commendation; and was a model to fashion or mold the life of any boy who wished to reach the pinnacle of success.

**C. I.'s Long Career**

Taylor began his baseball career in North Carolina, later he established a club at Birmingham, Alabama. His greatest desire was to give to his people the best there was in baseball and through his efforts the first northern club invaded the south; fifteen years ago the Leland Giants of which [illegible] mingham.

Through my persuation Mr. Taylor invaded the north and located at W. Baden, Indiana. While at West Baden he so developed his club that it won the championship. Aftr much inducement he removed his club to Indianapolis where he remained until his death.

At the beginning Indianapolis was a poor baseball region; the morale of the players and patrons were not up to his standard and his work along the line of elevating them was crowned with success. He quickly gained the confidence and good will of the people, secured the Federal Lague Park at Indianapolis. His business quilities won the confidence of the whites to such an extent that when the Federal League Park was sold they interceded for him and secured for his ball club Washington Park, its present play-grounds, where he draws as many white as colored patrons.

In the National Negro League he was the prime factor and much of his ill health was attributed to his untiring efforts he put forth in the maintenance of he league of which he was Vice President.

At the close of the past season dissatisfaction broke out in the ranks of the League and many thought there would be no further existence of the same. Taylor got out of his sick bed to convass the East with the purpose of persuading the men to continue in Organized Baseball and then came to the League Meeting in Chicago.

H fought both day and night for the principls of baseball and his great efforts were rewarded by the members of the League accepting unanimously all the things he desired. This is a great tribute to any man.

He left the meeting a sick man and when the news was flashed of the serlousness of his illness many men regretted the efforts he had put forth then came the news of his death and many believed the wonderful sacrifices he made were in vain.

**Baseball Will Sadly Miss C. I. Taylor**

I can say without fear of contradiction that Taylor's death, is colored baseball's greatest loss. He followed it for more than twenty-five years and was a tower of strength to it.

He has travelled with his club all over the United States and Cuba and has left indelible upon the minds of the people a record that will last for ages to come. His place cannot be filled; we can only hope to emulate the principles he so nobly carried out.

As a monument to his memory will remain the A. B. C's Baseball Club of Indianapolis.

## GENERAL SPORT NEWS

### Y. M. C. A. LEAGUES

The principal happenings of interest in the Y. M. C. A. Leagues, last week, was the cinching of the pennant by the Old Men in the Volley League. All the other leaders put up some good fights to keep out in front, but are being crowded by the Second Place Team.

**Volley Ball**

Up until Friday, the Young Men and the Invincibles had a chance to beat out the Old Men for the Championship. In the game Friday, the Old Men completely outplayed the Young Men, taking two straight games, 15-5, and 15-2 and tucked the championship safely away. Having lost no games up to date, the Old Men will fight hard to finish the season with a clean slate. The game Friday: Invincibles vs. Spartans. All other teams have a chance to cop second place.

**Indoor Base Ball**

In the Junior division, nothing happened in the Won and Lost column, as all teams played to a standstill; they are down to play if off next Saturday morning. The game Friday night in the Senior Division: Scullins vs. Black Swans.

**Basket Ball**

Two well played games resulted in the Junior department. The Cubs took the Wildcats in camp while the Panthers whipped the Buffalos. The game next Saturday: Cubs vs. Panthers, and Wildcats against the Buffalos. In the Senior division: the Black Swans scheduled to take on the Tigers.

**Owing to lack of space the standing of teams is omitted this week.**

## MANAGERS OF DEMPSEY AND WILLS REACH TERMS

### Only Thing Needed Now To Secure Bout For Heavyweight Title Is Secure

Associated Negro Press.

BOSTON, Mass., March 1.—Jack Kearns, manager of Jack Dempsey and Paddy Mullins, Manager of Harry Wills, Colored fistic star, held a most important conference in this city. It was announced following their long talk that both were agreed on all preliminary details of a bout for the heavyweight title.

Kearns told Mullins he is ready to sign articles at any time, but the guarantee and the place are intervening matters.

With both managers willing to post forfeits and put their signatures to contracts, a man with sufficient nerve and enough cash to foster the affair is all that is needed. This man may have some job on his hands in removing obstacles in political circles in the locality chosen for the match but sentiment is being molded in favor of getting a challenger worthy of Dempsey's steel and Wills is the only one in sight.

The syndicate has expressed a strong wish to have the match with Jack Johnson or Harry Wills.

"We are in a receptive mood," said Kearns today. "The Mexican thing looks good but we will wait a while before accepting."

# Negro Education Pays Dividends

### Land-Grant Colleges For Colored People Need More Trained Teachers. Government Officers Co-operate. Southern State Legislatures Make Larger Appropriations.

HAMPTON, Va. Feb. 28—The outstanding need of the landgrant colleges for colored people is a supply of trained teachers—teachers in agriculture and the mechanic arts particularly, but especially in agriculture—teachers who can uphold high standards and who can give their pupils what those pupils need. This fact was made clear at the recent Nashville meeting of the heads and other representatives of the colored land-grant colleges, called and presided over by Dr. John T. Tigert of Washington, D. C., U. S. Commissioner of Education.

Hon. J. B. Brown, State Superintendent of public instruction for Tennessee, in his address of welcome, exprssed the gretings and interest of Gov. A. Taylor. He stated that 101,000 Negro children in Tennessee, of 160,000 who are of school age, are enrolled in school. There are 306 Negroes in country high schools and 1699 in city high schools, according to Superintendent Brown.

**Leaders Face Big Problem**

Doctor Tigert emphasized the value of the human element in National progress. He declared that Negroes should be given freely the education which they need and should have. He referred to the progress which States like North Carolina and Louisiana have been making in providing educational facilities for Negroes.

Dr. A. C. True, director of the States Relations Service, U. S. Department of Agriculture, brought the greetings of Secretary Wallace. Doctor True stated that it is important that the Negro colleges should get a correct idea of their obligations to the people whom they serve, since their work is one phase of a world-wide educational movement for vocational education.

"There are still comparatively few good institutions for vocational training," declared Doctor True. "As long as industries were simple and labor was both cheap and abundant, there was comparatively little progress or need of skilled workers. With the application of science to industry, however, there has come a change. The human element in industry is now tremendously important, and we cannot have prosperous idustrial communities without trained workers.

**Education Is Needed for All Groups**

"Vocational education is not narrow; it must include the principles and fundamentals of the business and its relation to community life.

"Negroes need of course, a certain number of persons who will be professionally trained, as well as mechanics and farmers. There will be gifted Negroes in music, in art, and in literature, who must have the training that is suited to their needs. As with other races, however, the majority will be engaged in the more mechanical persuits. There must be teachers who are well trained to teach others how to farm and how to keep house.

**Negro Farmers Are Assets**

There are 925,000 Negro farmers in the United States, or 15 per cent of the total number of farmers. Over 700,000 of these Negro farmers are tenant farmers or operators. There are about 2000 Negro farmers who are put down as managers. There are about 218,000 Negro farm owners. In the case of the Negro farm operators, the land and buildings are valued at two and one quarter billion dollars.

"If we can change the standards of living on these farms, which are in charge of Negroes, economic prosperity in general will be likely to increase, because it is so largely dependent on agriculture.

"There are about 160 Negro farm-demonstration agents and about 80 home-demonstration agents who are working under the U. S. Department of Agriculture. There are also two Negro special agents.

"The U. S. Department of Agriculture would like to develop this work further. Yet even if the Congress should give us a larger fund for this purpose, our greatest difficulty would be to find people with the requisite training and experince. Therefor, the land-grant colleges should try to turn them out. They need more money for this purpose."

**Treacher-Training Interest Officials**

Charles H. Lane, chief of the agricultural education service of the Federal Board for Vocational Education, outlined the progress which has been made under the Smith-Hughes Act, passed in 1917, in teaching boys and girls in school and helping farmers and farm-housekeepers through funds which are entirely in the hands of State boards of vocational education. Some State boards, he said, have experienced difficutly in finding teachers upon whom they could well spend money. He made a plea for the training of first class teachers and expressed his belief that State officials are especially interested in the work of teacher-training.

**Education for Colored Home-Makers**

Miss Anna E. Richardson, chief of home-economics education service of the Federal Board for Vocational Education, paid a tribute to the excellent work of the home-economics supervisors who are at work in the Southern States. "There are three things which are to be done," she said "by land-grant colleges for colored girls: train home-makers, train for occupations connected with home-making work and allied activities, and train teachers. These teachers must know what home making is. They must have a good general education and a good technical or professional training."

Miss Richardson announced that Miss Carrie Alberta Lyford, director of the Hampton Institute Home-Economic School, had, been generously released to make a study of the home-economics problems which colored schools are facing.

**Negro Institutions Win Publis Support**

William J. Hale of Nashville, president of the Tennessee Agricultural and Industrial State Normal School, stated that in 1909 three white and one colored normal schools were established in Tennessee.

The first year $15,000 were given by Tennessee for its colored land-grant college, while last year $35,000 were given—and in addition $75,000 were given for houses. "Word went out," said President Hale, "that agricultural 'ment training Negroes to plow for white people and that 'industrial' meant training Negro girls to cook for white people."

J. S. Clark, president of Southern University, which is located six miles out of Baton Rouge, La., on the banks of the Mississippi, declared that "the colored land-grant colleges have been called upon to do almost everything." He stated that T. H. Harris, State superintendent of public instruction, and Gov. John M. Parker have been outstanding figures in Louisiana's educational program.

The first year $10,000 were appropriated for Southern University. The last Legislature appropriated $207,000 for Southern University and also $80,000 for a school for the Negro blind, which has been built on the Southern University Campus. Today 1000 colored people own their own homes in the neighborhood of Southern University.

The following Committee on Agricultural Curricula were appointed:

(1) High-School Division—John O. Spencer, chairman and Wm. J. Hale, secretary; (2) Junior-College Division—L. M. Favrot, chairman and James B. Dudley, secretary; (3) Senior-College Division—W. B. Bizzel, chairman and R. S. Wilkison, secretary.

A Committee on Financial Standards was appointed—J. E. Gregg, chairman, and J. S. Clark, secretary. A committee on Preparation of Faculty and Standards of Equipment was appointed—J. C. Futrall, chairman, and N. B. Young, secretary. The general chairman was Hon. J. B. Brown and the general secretary was Dr. John M. Gandy, president of the State Normal School at Petersburg, Va.

**1223 Rosenwald Schools**

The Conference sent a resolution of appreciation to Julius Rosenwald of Chicago for his interest and co-operation in the rural school-building campaign which is going on throughout the South. Today there are 1223 Rosenwald Schools, with a teacher capacity of 2812, built at a total cost of $4,012,923, which has been contributed as follows: Negroes $1,139,165; whites, $277,668; public funds, $1,840,210; and Rosenwald aid, $755,880.

Dr. Walton C. John of Washington, D. C., specialist in land-grant college statistics, U. S. Bureau of Education, who served as the executive secretary of the conference, stated, the principal objects of this meeting of leaders in colored land-grant college work: the revision of courses of study in agriculture and home economics; the improvement of equipment; the development of higher standards; and the stimulation of more interest so as to secure more adequate finincial support for the colored land-grant col-

## Garvey Blames Employees

Associated Negro Press.

NEW YORK, N. Y., March 1.—Marcus Garvey when haled before the federal court here recently made a plea that subordinates and not he were responsible for the trouble. He said that during his absence a great state of demoralization went on in the Black Star Line and that when he was able to return to the United States about the 15 of July 1921, he was confronted with a state of disorganization most alarming. Mr. Garvey said that upon investigation he found that the S. S. Phyllis Wheatley, should have been secured since April and that he had every reason to believe that a steamship would either be at anchor in New York City or had sailed for the sunny shores of Africa. It is felt by lawyers here that he will be in danger of [illegible] unless he is able to prove the [illegible] of his employees.

St. Louis To Enter Contest For The Home Office Of The American Woodmen

The home office of the American Woodmen is going to move and the citizens and members of the order here are determined to convince the Supreme Council that St. Louis is the place for it. ## LIBERTY CONGREGATIONAL

The Congregational Mission in fellowship of prayer unites with hundreds of thousands in meditations on the supreme sacrifice that has worked redemption in millions of lives. The Lenten season should remind us that our Christian lives must be nurshed by prayer and therefore the Church calls its members to unite daily in the study of the Scriptures and Prayer which means the linking of our lives and work with the power of God. The Work, Watch and Pray spirit is meeting with hearty response from the Congregational membership, the one effort is to raise $1,000 that it may receive an additional $1,000 from the Denomination before the close of April. As our membership is small, we here call upon the public and the Christian Churches to help us for this aid which will be appropriated to a much needed Congregational Church in St. Louis. *** It is very evident that the church is united and earnest in its effort to work. # COLONEL YOUNG WAS READY WHEN THE FINAL BUGLE SOUNDED "TAPS"

### Never Got Over The Blow That Prevented Him From Going To France, But He Died Like A Soldier.

Associated Negro Press.

WASHINGTON, D. C., March 1.—"Colonel Charles Young was ready for the roll call when the final bugle sounded 'taps.'"

This is the testimony brought to the people of the United States, direct from the last hours of Colonel Young by Henry O. Atwood, lifelong friend and military associate.

Captain Atwood has just reached the United States direct from Lagos, and gave this informatioin to a representative of the Associated Negro Press. Captain Atwood landed in New York, came to his home in Washington, and went on to Wilberforce, Ohio, to bear personal testimony to Mrs. Charles Young, and take some of the effects of the late Colonel.

One of the interesting things that Captain Atwood had was the last passport of Colonel Young, bearing his latest picture. The picture shows lines of protracted care and brave suffering.

Captain Atwood told the Associated Negro Press that Col. Young never got over the blow that prevented him from going to France during the World War. His attitude was not one of complaint, but the spirit of a soldier to the manor born who wanted to be in the thick of the game of war. He was like an athlete preparing for the Olympic games only to be denied entry at the last moment.

### March 12 Memorial

From one end of the country to the other, arrangements are going forward for the occasion of the national memorial, March 12. Mrs. Chas. Young is deeply appreciative of this testimonial of respect, and has informed the Associated Negro Press that the date selected is very fitting, as it is the birthday anniversary of Col. Young, who would have been fifty-seven years old on that date.

Gen. John J. Pershing, in an exclusive interview with a representative of the Associated Negro Press, expressed great interest in the occasion saying: "Colonel Young and I were cadets at West Point together, and I never knew a finer man; he was held in the highest esteem by all.

"We did not see much of each other," continued General Pershing, "after leaving West Point, until the occasion in Mexico."

"I think it very fitting that Colonel Young's memory should be revered."

General Pershing has prepared a special tribute to Colonel Young for the memorial occasion.

### J. W. Johnson Pays Tribute

James Weldon Johnson, Secretary of The National Association for the Advancement of Colored People, informed the Associated Negro Press that Robert W. Bagnall, Director of Branches, had been asked to notify all branches of the memorial occasion. For the event Mr. Johnson issued the following statement:

"It is fitting that, as the Associated Negro Press proposes, there should be national memorial services on Sunday March 12, as a testimony of respect to the late Col. Chas. Young, U. S. A. For Colonel Young is individual proof positive of the capability of the American Negro.

"Not only was he graduated from the United States Military Academy at West Point, the third Colored man to be graduated there, but he attained the highest military rank ever held by any Colored man in this country.

His services to his country included diplomatic duty in the Republic of Liberia. He was not merely an officer, he wa sa man of all-round ability. In him as in the other Colored men who distinguished themselves in public service in America, is found the highest vindication of those who claim for the Colored man all the opportunities humanly and under the Constitution are his.

"The National Association for the Advancement of Colored People gladly joins with the Associated Negro Press in doing honor to the memory of this distinguished representative of the best ideals of American citizenship."

# BALTIMORE EDITOR VISITS TUSGEGEE

Associated Negro Press.

TUSKEGEE INST., Ala., March 1.—Mr. J. H. Murphy, editor of the Afro-American, Baltimore Maryland, was among the prominent visitors at the Tuskegee Institute, during the past week. During his stay, Mr. Murphy who is perhaps the Dean of Negro editors, spoke to the student and faculty upon two occasions, pointing out the good of industrial training and urging the students to strive to press forward at all times. He was entertained at dinner by the Twentieth Century Club, on Monday evening. Mr. Murphy was accompanied by his son D. F. Murphy, and is enroute to Florida. While at the institute, he was the guest of Dr. R. R. Moton.

GILMORE, Ark., March 1.—Bloodhounds placed on the trail of Steadman Peace, Colored, who fled after killing his wife and Mother-in-law, lost the scent at the home of Mr. Peace's father, who was arrested and taken to Marion

The father denied that he knew where his son had gone.

Peace had been separated from his wife. Monday night he went to the home of her parents, drew a pistol and opened fire. His father-in-law and brother-in-law were slightly wounded.

My experience has taught me that there is a difference in people's scalp. There is always a cause for one's hair not growing. Sometimes your scalp is diseased, you may have ringworm I will tell you just what you need. My specialty is curing bald spost, or tetter. Come and consult me and bad temples and thin hair.

I will teach these branches: hair and scalp treatment, faicial and body massage, manicuring and chiropody. Diplomas given. A heart to heart talk with every woman and girl. I will tell you why you need to use different oils and salves.

I make and sell all Scalp and hair goods. Agents wanted, send stamp for a reply.

## LESSON FOR MARCH 5

### JEHOVAH'S MERCY TO A HEATHEN CITY

LESSON TEXT—Jonah 3:1-4:11.

GOLDEN TEXT—Let the wicked forsake his way, and the unrighteous man his thoughts: and let him return unto the Lord, and he will have mercy upon him; and to our God, for he will abundantly pardon.—Isa. 55:7.

REFERENCE MATERIAL—Isa. 45:20-25; 49:5-7; Jonah 1:1-2:10; Mal. 1:10, 11; John 3:16.

PRIMARY TOPIC—God Sends Jonah on an Errand.

JUNIOR TOPIC—How God Spared a Wicked City.

INTERMEDIATE AND SENIOR TOPIC—Jonah's Missionary Adventure.

YOUNG PEOPLE AND ADULT TOPIC—The Missionary Teaching of the Book of Jonah.

That the book of Jonah is historical we believe for the following reasons: First, its record and use in the Scriptures. That the writers of the Bible intended the impression of its historicity is without the shadow of a doubt. The suggestion that it is a parable is absolutely gratuitous. Second, the unbroken testimony of tradition among the Jews is that it is historic. Third, the testimony of Jesus Christ (Matt. 12:39-41). The words of Jesus Christ are final.

**I. Jonah's Second Commission** (vv. 1, 2).

When called the first time to go to Nineveh, he found the task too great for him. For his unfaithfulness, he was chastised. He repented and God restored his commission. The Lord said to him, "Preach the preaching that I bid thee" (v. 2). God knows how he wants His work done. Happy is the missionary, minister, Sunday-school teacher, who preaches God's Word just as He gave it.

**II. Jonah's Preaching** (vv. 3, 4).

1. His field (v. 3). "Nineveh was an exceeding great city." Not only was the city large, but its inhabitants were noted for their cruelty.

2. His message (v. 4). "Yet forty days and Nineveh shall be overthrown." This means that forty days were given by God for repentance ere the judgment would fall. God is long-suffering, not willing that any should perish, but that all should repent (II Pet. 3:9). Though He is merciful, yet there is a limitation to it. He says, "Yet forty days."

**III. The Repentance of Nineveh** (vv. 5-10).

1. They believed God (v. 5). They believed that God was speaking to them through the prophet about their sins and impending judgment.

2. They proclaimed a fast (vv. 5-8). The king and people joined sincerely in this movement. The call was for them to turn away from their sins. Their penitence was genuine, for they not merely put on sackcloth, the visible sign of mourning, but they cried to God (v. 8).

3. They reasoned that God would repent (v. 9). Though they had no assurance that God would have mercy, yet they reasoned that the sending of a prophet and the giving of a time before the fall of doom implied that God would be merciful if they repented. They were wise in so doing. We today know that God will have mercy if we repent (Acts 3:19). What utter folly to go on in sin in the face of the assurance that God will judge.

5. God's mercy shown (v. 10). "God saw their works that they turned from their evil way." God's eye is omniscient. Wherever there is a soul who is turning from sin in penitence, He sees. No one has ever wept over sin unnoticed by God. God rejoices when a sinner repents (Luke 15:10).

In the Book of Jonah we have portrayed the typical history of Israel:

"1. Jonah was called to a world mission, and so was Israel. (2) Jonah at first refused compliance with the divine purpose and plan, and so did Israel. (3) Jonah was punished by being cast into the sea, and so was Israel by being dispersed among the nations. (4) Jonah was not lost, but rather especially preserved during this part of his experience, and Israel is not being assimilated by the nations, but being kept for God. (5) Jonah, repentant and cast out by the fish, is restored to life and action again, and Israel, repentant and cast out by the nations, shall be restored to her former national position. (6) Jonah, obedient, goes upon his mission to Nineveh, and Israel obedient, shall ultimately engage in her original mission to the world. (7) Jonah is successful in that his message is acted upon to the salvation of Nineveh, so Israel shall be blessed in that she shall be used to the conversion of the whole world." —Dr. Gray's Commentary.

### The Apostles Work Wonders.

And by the hands of the apostles were many signs and wonders wrought among the people. And believers were the more added to the Lord, multitudes both of men and women. —Acts 5:12-14.

### Death in Life.

For we which live are always delivered unto death for Jesus' sake, that the life also of Jesus might be made manifest in our mortal flesh. So then death worketh in us, but life in you.—II Corinthians 4:11-12.

# TRY MAGNESIA FOR STOMACH TROUBLE

It Neutralizes Stomach Acidity, Prevents Food Fermentation, Sour Gassy Stomach and Acid Indigestion.

Doubtless if you are a sufferer from indigestion, you have already tried pepsin, pancreatin, charcoal, drugs and various digestive aids and you know these things will not cure your trouble—in some cases do not even give relief.

But before giving up and deciding you are a chronic dyspeptic just try the effect of a little Bisurated Magnesia—not the ordinary commercial carbonate, citrate or milk, but the pure Bisurated Magnesia, which you can obtain from practically any druggist in either powdered or tablet form.

Take a teaspoonful of the powder or two compressed tablets with a little water after your next meal, and see what a difference this makes. It will instantly neutralize the dangerous, harmful acid in the stomach which now causes your food to ferment and sour, making gas, wind, flatulence, heartburn and the bloated or heavy lumpy feeling that seems to follow most everything you eat.

You will find that provided you take a little Bisurated Magnesia immediately after a meal, you can eat almost anything and enjoy it without any danger of pain or discomfort to follow and moreover, the continued use of the bisurated magnesia cannot injure the stomach in any way so long as there are any symptoms of acid indigestion.

### MT. MORIAH BAPTIST

**Cairo, Ill.**

The Willing Workers Club of the Mount Moriah Baptist Church of Cairo, Illinois, entertained the Mothers Club of said church, Monday night in the Basement of the church.

The program was appropriate and solemn, because of the fact the pastir of said church died on the 13th of February 1922. He was a man of especially high Christian quality and a real Gospel Pastor. He conducted the church business just as a father, in reality conducted his family affairs. Less than one years service of this high standard brother, made a real favorable spiritual impression among the many churches of the city of Cairo, Illinois, which impression was noticable at his funeral, by the unusual large per cent of the membership, of the different churches in attendance, also non-christian, in all about 1500. This man proved himself to be one of the true Gospel Ministers after the apostolic grade, a copy worthy for others who aspire to the ministerial rank. In the death of Rev. W. S. Terrell, the city of Cairo lost a great man, whom they had learned to love. This church wants a man after his real type to fill its pulpit, but he that promotes himself must come with good recommendation from the church of his last pastorial service, and of the prominent business people where he lives as pastor. Mount Moriah Baptist Church is looking for a Christian man for its pastor, ability to preach will not be sufficient to qualify as pastor. Christianity is [illegible] in this case as a basis for [illegible] and [illegible] [illegible] Rev. W. S. [illegible] city are doing good work, their pastors are splendid men of the Gospel, calling, in fact we are proud of them.
